AGENDA & PRODUCT LAUNCH

On the table

(2-sided A4 print handout)

Expanding the Opus Suite

With the launch of three new additions to the Opus Suite - Evo, Insights, and Connect - we're adding even more power and capabilities for analysis-driven Life Cycle Management

EVO

Opus Evo provides tactical optimization of dynamic scenarios, introducing new, unique capabilities within logistics support optimization. The first release of Opus Evo provides two main capabilities:

Opus Evo Deployed Operations Planner:

- Optimize assortment of spares and support resources to bring along, given the duration and mission profile of a deployment
- Operational optimization for maximal mission success rate and readiness during the deployment
- Incorporate limitations in transport volume, weight, budget, etc. into the optimization

Opus Evo Tactical Logistics Support Procurement Optimizer:

- Determine the optimal use of the support and maintenance budget for the upcoming budget period, and preliminary planning for future budget periods
- Decide not only what spares and other support equipment to buy, but also when to buy them, taking lead times, budgets and effectiveness impact into consideration
- Adapt procurement planning for best possible fleet effectiveness given an increase/decrease of budget

INSIGHTS

Opus Suite Insights

Powerful visualization and dashboards for effective communication, understanding and decision support. OS Insights is a Business Intelligence tool for LCM that makes it easy to share your Opus Suite analysis results directly with a broader audience.

- Facilitates the sharing, communication, and interpretation of analysis results
- Design visualizations and dashboards without dealing with tables or queries
- Easy to install and easy to use

CONNECT

Opus Suite Connect

Opus Suite Connect simplifies the time-consuming task of ingesting data to Opus Suite models, with an overall aim to reduce the time spent on data ingestion by 80%.

- Increases the efficiency in building, updating, and maintaining Opus Suite models
- Shortens time-to-decision by delivering Opus powered decision support at speed
- Ideal for repetitive runs or analyses with updated data or multiple product breakdown revisions
- Simplifies the process of setting up batches of sensitivity and what-if analyses
- Supports ASD-53000L, MIL-Std-1388 and GEIA-0007
- Supports proprietary data in various Excel, XML, JSON, and CSV formats

Opus Suite User Conference

LONDON

Victory Services Club, 63-79 Seymour Street, London W2 2HF

WEDNESDAY 19th OCTOBER

SPEAKER GIFT CARD

Together with Orrefors Peak Straws

(I-side A6 print handout)

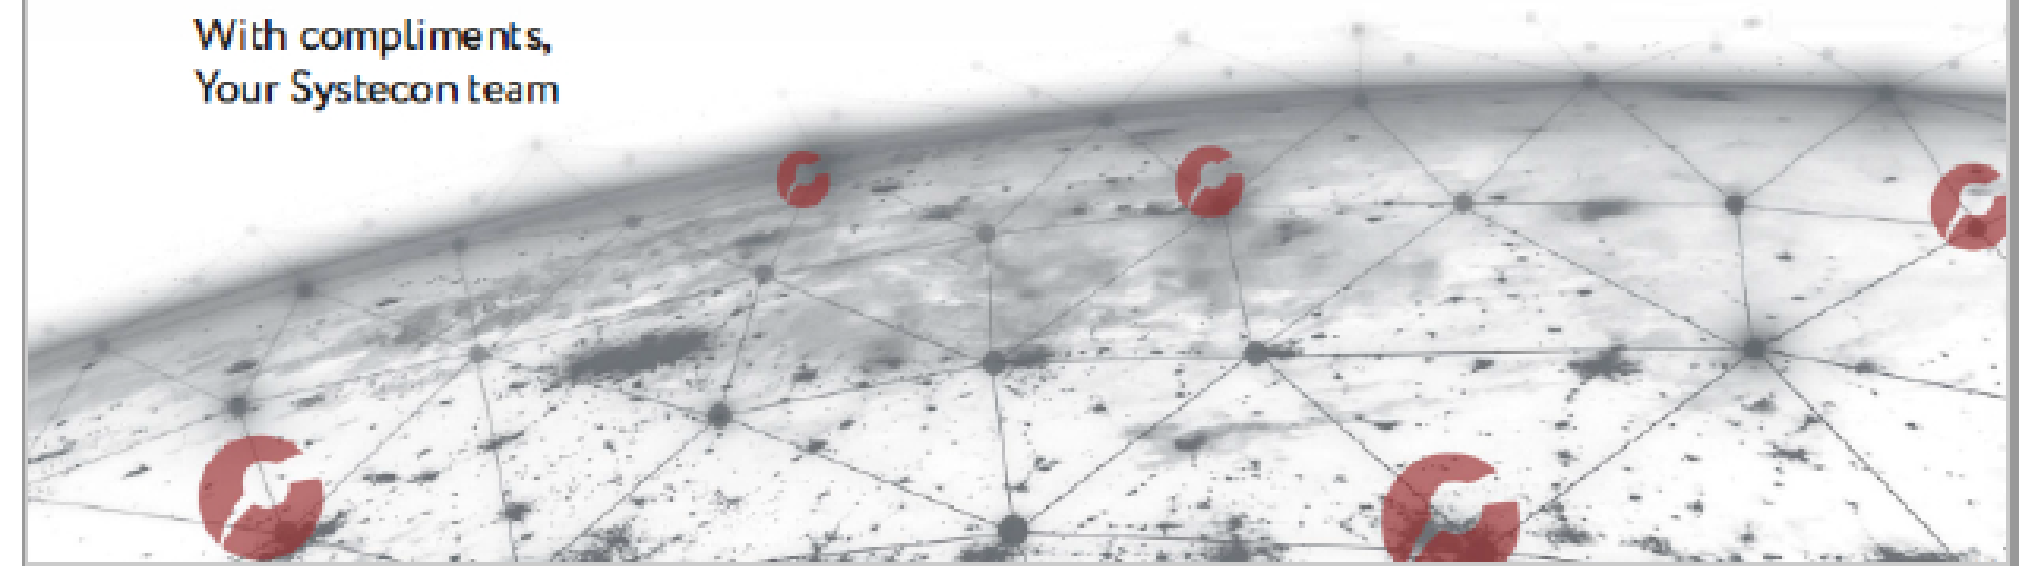

Dear Speaker,

At Sysstecon, we love to celebrate great Swedish design combined with sustainability. As a thank you for your presentation at the Sysstecon International User Conference 2022, please accept this gift from a historic Swedish glass manufacturer, Orrefors Kosta Boda AB.

We believe that small details can add up to a big impact - so here's an elegant solution to reducing waste and helping to protect the planet...one sip at a time.

With compliments,
Your Sysstecon team

CONFERENCE CARD

End of Day 1 with a chocolate

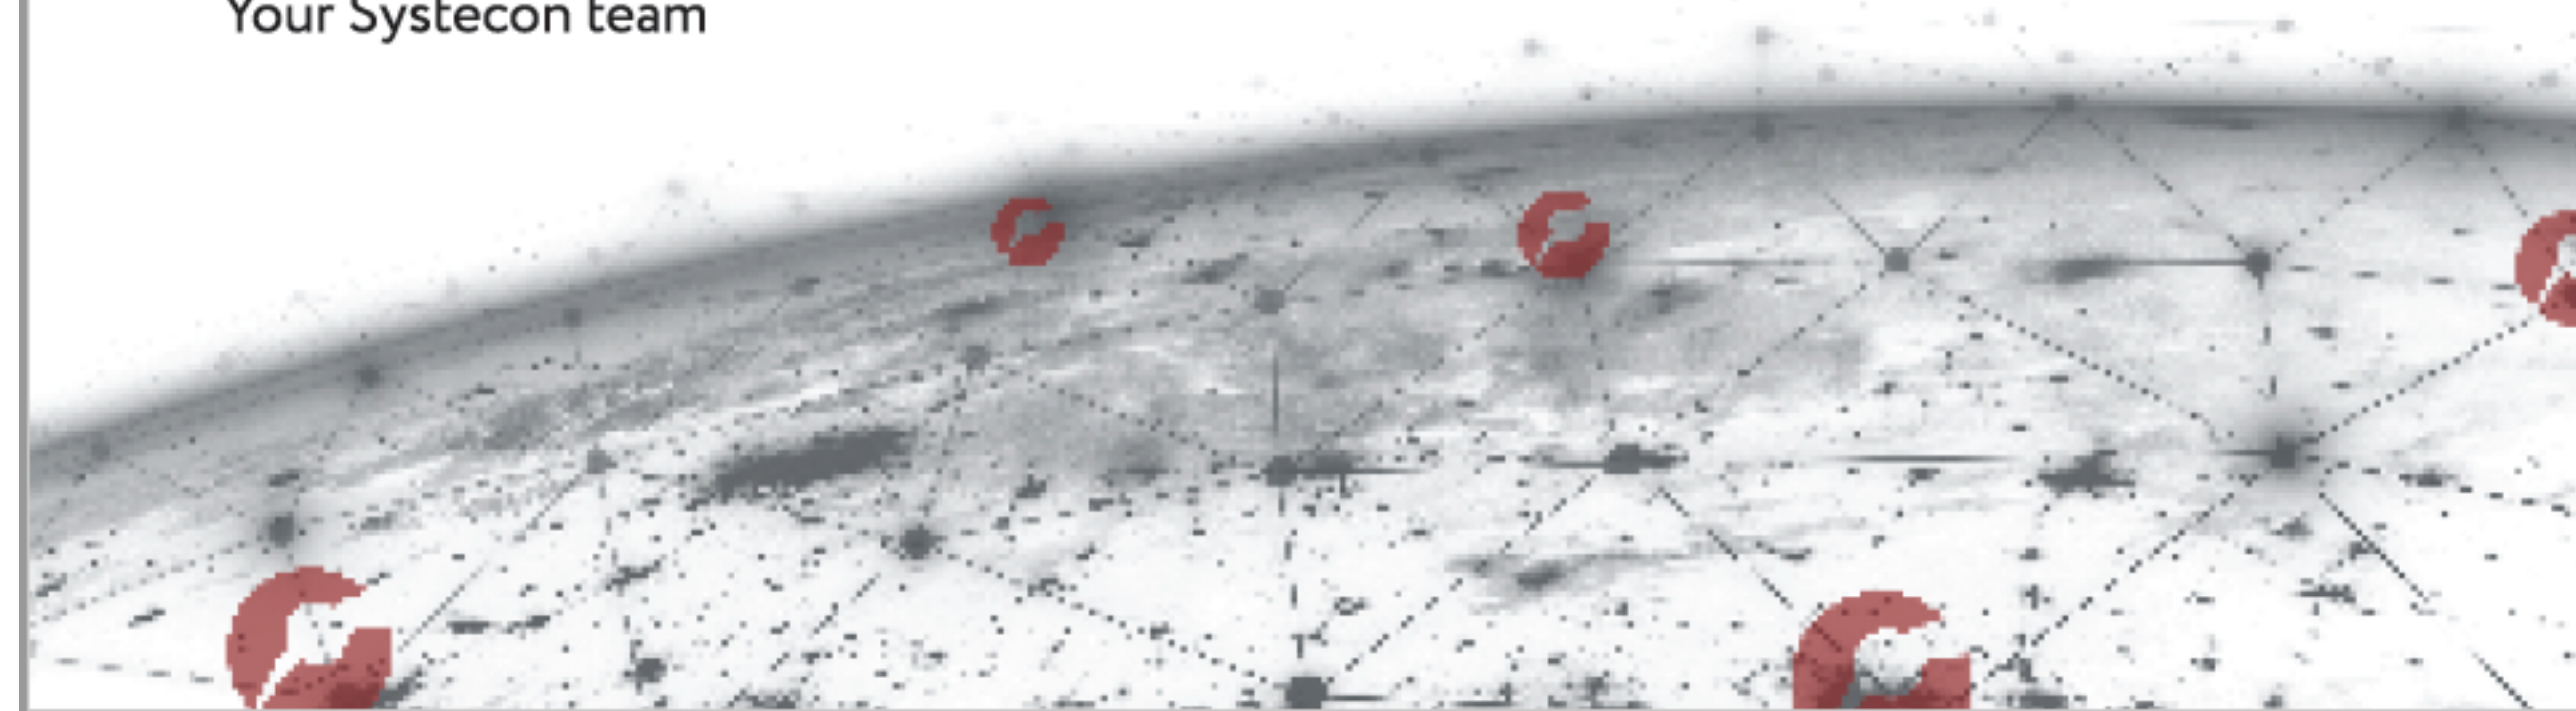

(I-side A6 print handout)

Dear guest,

After a long day at the Opus Suite User Conference it is time for a small refreshing treat. Please enjoy! We look forward to seeing you again tomorrow.

With compliments,
Your Systecon team

Invitation to the 2022 International Opus Suite User Conference

When?
19th-20th October 2022

Where?
Victoria Services Club
London, UK

Welcome to London

The International Opus Suite User Conference is a meeting place for Life Cycle Management (LCM) professionals and Opus Suite users around the world. Providing the opportunity to share experiences and case studies from the different applications, and where Systecon presents the latest developments of Opus Suite and LCM methodology and gives you the opportunity to talk to the developers.

A draft agenda will be posted in the conference area [website](#) and will be updated as the programme is finalised. The first draft should be available in late September.

If you have experiences within LCM and Opus Suite that you think might be valuable for others, please do not hesitate to get in touch for the possibility of doing a presentation that would be beneficial for the Systecon community.

We would appreciate your registration as soon as possible. Please be aware that places will be reserved on a first come first served basis. We need your registration by 30th September 2022.

Systecon UK would also like to extend an invitation to your company to send representative(s) to attend either one or both days.

We hope to see you all in October!

Best regards
SYSTECON UK Ltd
John Gallagher CEO

Request reservation

Contact
If you have any questions, please contact your local representative.

Accommodation
A selection of economy accommodation is available from the following hotels:
[Premier Inn](#)
[Travel Lodge](#)

Who should participate?
The conference is aimed at Practitioners and Decision Makers within the Life Cycle Management arena, with links to the Opus Suite and related services.

SURVEYS

Customer Satisfaction Survey and Event Survey

Customer Satisfaction - onsite, 2-sided A4 printed handout

Event - online, after the event

OPUS SUITE CUSTOMER SURVEY 2022

Your company name:

Please indicate the type of your role/area of operation in the organization:

How long have you been an Opus Suite user (any of our products included in Opus Suite)?

☐ More than 3 years ☐ 1-3 years ☐ Less than 1 year

OPUS SUITE

What version of the Opus Suite are you MAINLY working with at the moment?

☐ 2019 or older ☐ 2020 or newer ☐ I don't work with the Opus Suite

Please rate your overall satisfaction with Opus Suite:

☐ Excellent
☐ Very Good
☐ Good
☐ Satisfactory
☐ Poor

What feature, or capability, in Opus Suite is the most valuable for you and your organization?

What input data is the hardest to get into the models in Opus Suite?

TRAINING AND SUPPORT

Have you attended to any Opus Suite training during the last year?

☐ Yes, classroom training
☐ Yes, online training
☐ Yes, on-demand eLearning
☐ No

What training-setup do you prefer?

☐ Classroom training
☐ Online training
☐ On-demand eLearning
☐ No preferences

Other comments on training:

Please rate your overall experience of the Systecon support team:

☐ Excellent
☐ Very Good
☐ Good
☐ Satisfactory
☐ Poor

How do you prefer to interact with the Systecon support team?

☐ E-mail
☐ Phone call
☐ Scheduled meetings
☐ I don't interact with the Systecon support
☐ Other, please specify:

NEW PRODUCTS IN OPUS SUITE

Do you see a potential use of our new tool, INSIGHTS (for BI and visualization in Opus Suite) within your organization?

☐ Yes
☐ No

If yes, please specify some application areas:

Do you see a potential use of the new tool, CONNECT (for integration and data ingestion in Opus Suite) within your organization?

☐ Yes
☐ No

If yes, please specify some application areas:

Do you see a potential use of our new product, EVO (handling tactical optimization of dynamic scenarios in Opus Suite) within your organization?

☐ Yes
☐ No

If yes, please specify some application areas:

Finally, do you have any further comments or thoughts you would like to share with us?

Thank you for your time and your feedback. After completing the survey, we kindly ask you to hand it over to one of our representatives.
