

Dear Speaker,

At Systecon, we love to celebrate great Swedish design combined with sustainability. As a thank you for your presentation at the Systecon International User Conference 2022, please accept this gift from a historic Swedish glass manufacturer, Orrefors Kosta Boda AB.

We believe that small details can add up to a big impact - so here's an elegant solution to reducing waste and helping to protect the planet...one sip at a time.

With compliments,
Your Systecon team
