MISSION SUCCESS

EVO – a universal approach

- Virtually any parameter or aspect in the Opus Suite model can be optimized:

*“if you can model it, you can evaluate it
if you can evaluate it, you can optimize it”*

- Several specialized products – “powered by Opus Evo”
- First two products currently available:
 - **Deployed Operations Planner “EVO-DOP”**
 - **Tactical Logistics Support Procurement Optimizer “EVO-LPO”**
