

Opus Suite version 2025.1 – Release Notes

This document presents the issues which have been resolved with the release.

Key	Summary	Components
OSB-3550	Eagle connector documentation is not up-to-date with latest implementation.	Connect
OSB-3549	Max nbr systems in maintenance (MAXPM) doesn't seem to have any effect.	SIMLOX
OSB-3547	Missing user documentation for Eagle connector.	Connect
OSB-3546	Incorrect scaling of downtime when using PSEI	OPUS10
OSB-3538	We have updated the "Combining subproblems" warning, since calculation time has decreased significantly for large cases and the warning was therefore triggered too quickly.	OPUS10
OSB-3537	Error 236 (Existing stock > 0 but no demand rate) gives rise to unnecessary problems.	OPUS10
OSB-3536	SIMLOX hangs on model with lateral support and robbing.	SIMLOX
OSB-3535	Add a runtime warning (similar to warning #2336) that a resource is requested at a station but no resources are deployed there and no remote support is available.	SIMLOX
OSB-3528	Inserting allocation into a file will also insert Resource Allocation, added a warning as it might not be what everyone want.	OPUS10
OSB-3509	Results are not reset properly between Solution Finder Runs and are instead accumulated with each iteration.	OPUS10
OSB-3503	The simulation calculation are extreme slow when not enough resources included in the case.	SIMLOX, Opus Evo
OSB-3497	SIMLOX crash when multiple LRU removals are triggered as a result of SRU failures.	SIMLOX
OSB-3479	The help references to Combine Files Table not present in RDM	OPUS10
OSB-3470	Vertical scroll bars not present in OPUS10 Result Viewer result tables.	Result Viewers
OSB-3469	Non-deterministic results with NormalDistribution.	SIMLOX
OSB-3463	Exe file for viewers are not signed.	OPUS10, SIMLOX
OSB-3450	Can't find all great functions in result viewer, such as reference point.	Result Viewers
OSB-3429	No warning that multiple mission operational modes are not supported for non-FBD cases.	SIMLOX
OSB-3416	Usage of ItemReplacementStructure results in unclear error #2096	OPUS10
OSB-3380	Copy graphs does not include title or names of axes.	Result Viewers
OSB-3379	Minor issues with csv export in OPUS10 Result Viewer.	Result Viewers
OSB-3311	SIMLOX RDM takes long time to finish simulation compared to SIMLOX v2019.2.	SIMLOX

OSB-3253	Mismatch in list of SIMLOX modeling examples in userdoc.	SIMLOX
OSB-3252	Error251 linked to the wrong table.	OPUS10
OSB-3245	Remedy missing on Error 1500.	OPUS10
OSB-3232	Error #2283 redirects user to wrong section in help.	OPUS10
OSB-3211	Documentation for license server is incorrect regarding necessary .dll files.	Common
OSB-3195	Warning#2318 "The utilization profile (UTILID) is missing..." is given in SIMLOX when operation profile is assigned to UnitGroup.	SIMLOX
OSB-3131	Empty Component Group or Station group gives error 2355, changed to a warning.	OPUS10, SIMLOX
